

TaSHI Newsletter First edition

Welcome to the TaSHI Newsletter

Dear Colleague,

The project entitled "Empowering EU health policies on Task SHIfting" is running in the next 3 years and dedicates special attention to the task shifting practices in various healthcare settings in Europe. The Newsletter aims to bring the latest news on the ongoing activities and upcoming events of the TaSHI project directly to your mailbox. You can also get the latest information on new uploads and publications in our knowledge hub, and get informed about the recent findings and lessons learnt of pilot studies implementing task shifting practices.

- · for increased capacity in Europe to promote task shifting initiatives, · for better understanding the processes and environments of task shifting in healthcare settings,
- · for updating information on useful tools, methods and existing practices in
- · for more precise guidelines and recommendations for strengthening the
- knowledge and real-life implementation on task shifting, for designing tangible training materials and curriculum for health workforce upskilling trainings,
- · for facilitating discussions on the supportive role of task shifting in achieving well- functioning health systems, practices and organisation of care, · for a unique platform for collaboration, where stakeholders can exchange
- experiences and find solutions for their difficulties in HRH management and HWF planning,
- for a higher impact on building the capacity of health workforce policies in the

Hope to inform, consult and collaborate with you for completing the mission of TaSHI in the coming years!

Latest news

First TaSHI webinar

JOIN US in the first webinar of TaSHI which will be organised on the

24 November 2021, 13:00-14:00 CET Brussels time.

The focus of the event is: Task shifting in practice - TaSHI initiatives for overcoming health workforce challenges

In the frames of this webinar the TaSHI pilots will be presented to the audience. The venue of the event is the EU Health Policy Platform.

TaSHI vision

The health workforce in Europe is facing significant challenges due to the ageing population and ageing HWF, shortages and unequal distribution of HWF and resources.

TasHI aims to help find the way out of this problem.

Main activities of TaSHI

"Tasks can be shifted from health and care professionals to patients, machines or to other professional groups ."

(EU 2019)

Task shifting can contribute to **more effective organisation of care and management** of human resources for health at different levels, so committing to improve **efficient and sustainable health systems** in innovative ways.

TaSHI focuses on:

- Taking care of accumulating evidence
- Analysing the existing practices
- Selecting a common framework
- Hold expert discussions and organise stakeholder

dialogues

- Identify future plans
